

Tegral Materials expands distribution partnership with Borealis into Southern and Western Europe

Borealis is pleased to announce the expansion of its strategic distribution partnership with Tegral Materials, further reinforcing its commitment to delivering high-performance polyolefin packaging solutions across Europe.

Following the successful collaboration announced earlier this year—where Tegral Materials, a Vinmar company, was appointed as [Borealis' distribution partner](#) for Belgium, the Netherlands, Luxembourg, France, and Germany—this partnership will now extend to **Spain, Portugal, the United Kingdom, and Ireland, effective September 1.**

This development complements Borealis' existing network of distribution channels, enhancing regional coverage and enabling more tailored service to customers in the Flexible and Rigid Consumer Packaging sectors. Through this expanded footprint, Tegral will offer Borealis' polyethylene (PE) and polypropylene (PP) solutions, addressing growing demand for innovative and sustainable materials in these key markets.

This partnership is built on a shared commitment to innovation, reliability, and sustainability. In alignment with these values, Borealis and Tegral are actively exploring the integration of the [Bornewables™](#), as well as [Borcycle™ C](#) and [Borcycle M](#), into Tegral's product offering in the medium term. These product families reflect Borealis' dedication to advancing circularity in plastics – leveraging renewable feedstocks alongside chemical and mechanical recycling technologies.

By leveraging Tegral's regional expertise alongside Borealis' established distribution infrastructure, both companies aim to provide enhanced value to customers and support the transition toward more sustainable packaging solutions.

END

About Borealis

Borealis is one of the world's leading providers of advanced and sustainable polyolefin solutions. In Europe, Borealis is also an innovative leader in polyolefins recycling and a major producer of base chemicals. We leverage our polymer expertise and decades of experience to offer value-adding, innovative and circular material solutions for key industries such as consumer products, energy, healthcare, infrastructure and mobility.

With customers in over 120 countries and head office in Vienna, Austria, Borealis employs around 6,200 people. In 2024, we generated a net profit of EUR 566 million. OMV, the sustainable chemicals, fuels and energy company with a focus on circular economy solutions, headquartered in Vienna, Austria, owns 75% of our shares. The Abu Dhabi National Oil Company (ADNOC), based in the United Arab Emirates (UAE), owns the remaining 25%.

In re-inventing essentials for sustainable living, we build on our commitment to safety, our people, innovation and technology, and performance excellence. We are accelerating the transformation to a circular economy of polyolefins and expanding our geographical footprint to better serve our customers around the globe. Our operations are augmented by two important joint ventures: Borouge (with ADNOC, headquartered in the UAE); and Baystar™ (with TotalEnergies, based in the US).
